Read all of the instructions and look at the pictures before installing. Please note: The Hub mount can be placed on either side of the holder. 1. Turn the device back side up in order to demount the screws. 2. Place the Hub mount over the holes. Attach the Hub mount by using the enclosed screws. 3. To attach the cable: Attach the cable to the device. Place the lid over the cable and screw it into place with the enclosed screws. 4. The mount is in place.
